

A1  
conc.

10. (AMENDED) The optical-electrical wiring board according to claim 1, wherein said mounting means is arranged such that, when a light-emitting element or a light-receiving element is mounted on said mounting means, the light-emitting surface of said light emitting element or the light-receiving surface of said light-receiving element is arranged on the axis of said second waveguide.

11. (AMENDED) A mounted board prepared by mounting an electrical part to the optical-electrical wiring board according to claim 1.

12. (AMENDED) A mounted board prepared by mounting an electrical part to the optical-electrical wiring board according to claim 1.

Aa

16. (AMENDED) The method of manufacturing an optical-electrical wiring board according to claim 14, wherein said method further comprises the step of forming a light-collecting lens in one edge of said second core on the side of said first surface.

**REMARKS**

In accordance with the foregoing, claims 8-12 and 16 have been amended. Claims 1-16 are pending and under consideration.

If there are any additional fees associated with filing of this Amendment, please charge the same to our Deposit Account No. 19-3935.

Respectfully submitted,

STAAS & HALSEY LLP
